# COMMERCIAL REAL ESTATE

A booming market brings business growth...  
and increased competition. Gain an advantage with  
landproDATA and exceed clients' expectations.

## AMAZING FEATURES

### MAPPING

Use our mapping tools to show all factors that support property valuation.

### CUSTOMIZED DATA

Upload your GIS data and create unique project layers to visualize your portfolio.

### REPORTS

Enhance presentation materials with more context, answers, and supporting plat documents and research reports.

### PROJECT DETAILS

Gather ownership info, comprehensive parcel reports, assessments, building permits and more with the push of a button.

### NEWS

Stay informed of land development events with private and public newsfeeds and our Newsletter.

## WHY CHOOSE US?

Perform robust data searches for land and ownership information.

Create the most accurate, comprehensive proposals in the market.

Incorporate Google Earth™, aerial views, maps, and data layers to support property valuation.

See plans for adjacent properties, parcels designated for office space, schools, etc.

Spend less time gathering data and more time closing deals.

## ABOUT US

Developed by a land professional for land professionals, **landproDATA** provides a data-driven mapping tool that gives Engineers and Planners the comprehensive, accurate GIS data, visuals, and reports you need. Our web-based solution allows you to gather information quicker, keep your customers happy, and not miss the latest news for team projects. Anytime. Anywhere.
