

landproDATA

# RESIDENTIAL REAL ESTATE

The market is fierce, much like your determination to best serve your clients. landproDATA helps you enhance customer service, grow your business, and be a market expert.

## AMAZING FEATURES

### MAPPING

Have a complete picture of your listings, nearby businesses, schools, parks, subdivisions, etc.

### CUSTOMIZED DATA

Upload your data and create unique project layers to visualize your portfolio.

### REPORTS

Enhance presentation materials with more context, answers, and supporting plat documents and research reports.

### PROJECT DETAILS

Gather ownership info, comprehensive parcel reports, assessments, building permits and more with the push of a button.

### NEWS

Receive real-time development news alerts.

## WHY CHOOSE US?

Spend less time gathering data and more time closing deals.

Perform robust data searches for land and ownership information.

Create better, more accurate proposals in half the time.

Incorporate Google Earth™, aerial views, maps, and data layers to support property valuation.

See plans for adjacent properties, parcels designated for office space, schools, etc.

## ABOUT US

Developed by a land professional for land professionals, **landproDATA** provides a data-driven mapping tool that gives Engineers and Planners the comprehensive, accurate GIS data, visuals, and reports you need. Our web-based solution allows you to gather information quicker, keep your customers happy, and not miss the latest news for team projects. Anytime. Anywhere.
